RE: EXTERIOR CONSTRUCTION WORK

We have now completed most of the 1st phase of our construction. The exterior stairwells and balcony/walkway projects are completed. The front area which will hold our new office is on hold until land surveys are completed and approved by the City of NMB. This will be an ongoing project until December 31st, 2024.

We sincerely apologize for any inconvenience this project may cause but appreciate your patience and understanding as we work towards maintaining our building to continue to provide you with a quality vacation experience. We are doing our best to better our resort and create memorable vacations for years to come.
